

MARY HANNAH HART

Data Analyst · Pipelines, BI & Data Quality

maryhannahhart12@gmail.com · +34 686 696 640 · [linkedin.com/in/mary-hannah-hart](https://www.linkedin.com/in/mary-hannah-hart) · Madrid, Spain

Data analyst with six years across energy, retail and e-commerce, building the layer between source systems and the decisions made from them — SQL and Python transformation, scheduled reporting pipelines, and the Power BI models and documentation that keep the output trustworthy. Delivery across global, multi-market organizations and in regulated environments where access control, security review and auditable documentation are part of the job.

PROFESSIONAL EXPERIENCE

Data Analyst **IKEA (Ingka Group)** · *internal marketplace startup, 8 markets* Nov 2025 – Present

- Build and maintain the **ingestion and transformation layer** for a two-sided marketplace — BigQuery models for session, engagement and customer state feeding Power BI dashboards used weekly by 300+ stakeholders.
- Automated weekly OKR reporting into a **scheduled pipeline**, orchestrating Jira exports through BigQuery and notebook runs and replacing manual assembly.
- Led the organization-wide **migration of all web analytics tooling across 8 international markets**, with full documentation for future teams and zero disruption to reporting continuity.
- Own the data dictionary and KPI reference — formula, source table, grain and owner per metric — and run cross-functional **data quality** workshops that turn recurring pipeline breakages into owned remediation actions.
- Automated reporting pipelines in BigQuery, Python and Power Automate, saving €30,000 in operational costs; standardized SQL with engineering and product, reducing cloud compute costs.

Senior Product Analyst **Duke Energy** Jan 2022 – Nov 2025

- Identified **\$24M in business value** through automated Power BI and PowerApps dashboards that directly informed executive decision-making.
- Partnered with **Cyber Security and Architecture** to document and secure data workflows in Google Cloud, reducing unauthorized access incidents; owned access management across 68+ analytics accounts.
- Led a Power BI Community of Practice — org-wide training plus 80+ templated dashboards for standardized KPI tracking.
- Digital analytics SME across Google Analytics, Tag Manager and BigQuery; defined and documented cross-organizational processes adopted company-wide, and delivered an eight-week technical handover curriculum to a successor.

Marketing Analyst **Keri Shull Team** Feb 2021 – Jan 2022

- Designed measurement frameworks in Google Analytics and Tag Manager, improving campaign tracking accuracy by 20%.
- Built dashboards that improved reporting efficiency by 80%, and defined KPIs with stakeholders to align spend against business objectives.

Data Associate **Charitable Aid Foundation of America** Mar 2020 – Jan 2021

- Supported facilitation of **\$532M in grants** by optimizing donor and charity databases, improving data accessibility and processing accuracy.
- Analyzed COVID-19's impact on global philanthropic giving; insights presented at the **UN General Assembly** and used to shape international strategy.

TECHNICAL SKILLS

DATA & ELT SQL (BigQuery — CTEs, window functions, nested data) · Python (pandas DataFrames, notebooks) · data modeling · transformation logic · pipeline orchestration · Firestore / NoSQL

MICROSOFT & BI Power BI (SME) · DAX · Power Automate · PowerApps · SharePoint · Tableau · Looker Studio · Amazon QuickSight · dashboard automation

GOVERNANCE Data quality monitoring · data dictionaries and technical documentation · KPI definition · access management · GDPR-regulated environments · Agile / Jira

TRACKING Google Analytics / GA4 · Google Tag Manager · Firebase · JavaScript · event taxonomy design · tagging QA

EDUCATION & CERTIFICATIONS

University of South Carolina BA, Political Science 2016 – 2019

Google Cloud Digital Leader (2025) · Microsoft: Data Modeling in Power BI (2023) · Microsoft: Data Analyst & Data Visualization Using Power BI (2023) · Google Analytics Certification (2023) · SQL for Data Analysis, UC Davis (2023)
